To Whom It May Concern,

I would like to express my personal support for Church in the City and the positive impact Church in the City has on the city of Denver and our organization, The United States Christian Chamber of Commerce. Church in the City is the spiritual covering for the United States Christian Chamber of Commerce and has graciously allowed us to host our monthly chapter breakfast and lunch meetings at their facility. The central location of Church in the City is very important for us to accomplish our mission of bringing business, ministry, and church leaders together for worship, prayer, fellowship, and sharing Biblical principles and business best practices.

The staff of Church in the City is very polite, helpful, welcoming, and accommodating. In addition to allowing us to host our monthly meetings, Church in the City was the host site for the First Annual Colorado Christian Business and Ministry Leader Conference in October. The Conference was attended by over 125 business, ministry, and church leaders from Metro Denver, Colorado Springs, and Fort Collins. Last month we hosted a small group meeting of Latino Christian Business Owners at Church in the City that was attended by over 35 people.

I am aware of the situation facing Church in the City regarding their lease and the wonderful opportunity they have to purchase and restore the Synagogue located one block away. I cannot imagine Church in the City no longer being part of the fabric of this neighborhood and the city of Denver. I will personally spiritually and financially support Church in the City and The United States Christian Chamber of Commerce will spiritually and financially support Church in the City with their relocation to the Synagogue.

We are looking forward to a continued relationship with Church in the City.

Sincerely,

Paul G. Northrup  
Chief Steward Officer, United States Christian Chamber of Commerce
